

Hear Yourself Think Again!

WhisperStation™

Ultra-Quiet Platform for 64-bit Graphic Design Applications

Originally designed for a group of power hungry, demanding engineers in the automotive industry, WhisperStation™ incorporates dual 64-bit AMD Opteron™ or Intel® EM64T™ processors, ultra-quiet fans and power supplies, plus internal sound-proofing that produce a powerful, but silent, computational platform. The WhisperStation™ comes standard with 2 GB high speed memory, an NVIDIA FX1300 PCI Express graphics adapter, and 20" LCD display. It can be configured to your exact hardware specification with Linux or Windows, including the new Windows XP Professional x64 Edition designed to drive the latest specialized 64-bit DCC software applications. RAID is also available. WhisperStation™ will also make a system administrator very happy, when used as a master node for a Microway cluster! Visit www.microway.com for more technical information.

Experience the "Sound of Silence".

Call our technical sales team at 508-746-7341 and design your WhisperStation™ today.
