

Experience Lightning Without The ThunderSM

▶ **WhisperStation-Pro™**

1 TERAFLIP IN A COOL, FAST, RELIABLE PLATFORM!

Whether it's Wall Street, Main Street or Your Street, Microway's new Nvidia-powered WhisperStation-Pro is energy-efficient, designed for superior performance, and best of all - QUIET.

Originally designed for a group of power hungry, demanding engineers in the automotive industry, WhisperStation-Pro incorporates two AMD® Opteron™ or Intel® Xeon® quad-core processors and high-efficiency power supplies. Ultra-quiet fans and internal sound-proofing produce a powerful, but silent, computational platform.

WhisperStation-Pro configured with one Quad core processor, 4 GB high speed memory, 250 GB drive, dual-GigE, NVIDIA® Quadro™ FX570 graphics and 20" LCD – **starts at \$1995.**

You can have it configured to your exact needs with NVIDIA GeForce® or Quadro graphics adapters (including SLI®), NVIDIA Tesla™ GPU, any Linux distribution, or Windows® dual-boot. Also, there is plenty of room for RAID storage expansion. From a home based workstation for financial wizards, to a superior gaming or design station, WhisperStation-Pro fits the bill and your budget.
