

WhisperStation™ -3D Elite

ULTRA-QUIET 64 BIT GAMING RIG

QUIET, HIGH-PERFORMANCE GAMING

Designed from the ground up for the ultimate gaming experience, the WhisperStation™-3D Elite features two AMD Six-Core or Intel Quad-Core processors, ultra-quiet fans and power supply and internal sound-proofing. Next, specify NVIDIA GeForce™, GTX™, or ATI Radeon™ 5800 series PCI-E GPUs, up to 64GB memory, a CD/DVD burner, up to four LCD monitors and your choice of chassis to complete your system design.

WhisperStation-3D Elite is available with 64-bit Windows 7 or XP. It can also be configured to dual boot Windows and your Linux distribution of choice for no additional charge. Custom configurations include additional RAM, hard drives, RAID controllers, Wi-Fi, and multiple monitors.

All Microway WhisperStations are thoroughly burned-in and tested with the exact configuration you specify. Design criteria include ready access to peripherals and excellent cooling, while using acoustic technology to reduce the noise generated to white noise background levels. The WhisperStation-3D Elite is a descendant of Microway's desktop supercomputers designed for Fortune 500 firms.

ENHANCE YOUR GAMING EXPERIENCE

- So quiet you'll hardly know it's on!
- Multiple monitors and GPUs with SLI (up to four) provide the extra edge you need.
- High-performance processors, memory, graphics cards and networking insure smooth, lag-free gaming.
- Custom-designed to fit your gaming needs.
- Industry leading cooling to protect your components.
- All hardware stress-tested before shipping.
- Built and supported in the USA!

SOFTWARE OPTIONS

- Microsoft Windows™ 7 64-bit or XP Pro x64
- Bundled game options: World of WarCraft, Battlefield 2142, FIFA, Madden, Need for Speed, Medal of Honor, Quake 4, Unreal Tournament, and Grand Theft Auto 4. Other games are available upon request!
- SUSE, Red Hat, Fedora, CentOS, Ubuntu, Debian or Gentoo Linux
- Dual Boot Windows and Linux fully integrated and tested!

**Microway**
Technology you can count on™

Your Gaming Rig Should Be Seen, Not Heard!

WHISPERSTATION™-3D ELITE WITH AMD QUAD OR SIX-CORE OPTERON PROCESSORS

- One or two Quad or Six-Core 64-bit Opteron processors in an Ultra Quiet Tower
- Memory: up to 64GB of DDR2-800 ECC Unregistered Memory DIMMs
- Dual NVIDIA® GeForce™, GTX™, or ATI® Radeon™ 5800 series PCI-E Graphics Cards
- Hard Drives: Up to 5 SATA-II, SAS or SCSI drives
- Dual embedded Gigabit Ethernet ports
- High Definition 8-Channel Audio
- Additional Drive Options: (1) 3.5" floppy drive; (2) DVD/CD, DVD-RW/CD-RW, or Blu-ray drives
- Top and rear access USB 2.0 connectors
- Rear access IEEE1394 FireWire connectors
- High-Efficiency 80%+ 1000W Silent Power Supply

WHISPERSTATION™-3D PRO WITH AMD QUAD OR SIX-CORE OPTERON PROCESSOR

- One Quad or Six-Core 64-bit Opteron processor in an Ultra Quiet Tower
- Memory: up to 32GB of DDR2-800 ECC Unregistered Memory DIMMs
- Dual NVIDIA® GeForce™, GTX™, or ATI® Radeon™ 5800 series PCI-E Graphics Cards
- Hard Drives: Up to 5 SATA-II, SAS or SCSI drives
- Dual embedded Gigabit Ethernet ports
- High Definition 8-Channel Audio
- Additional Drive Options: (1) 3.5" floppy drive; (2) DVD/CD, DVD-RW/CD-RW, or Blu-ray drives
- Top and rear access USB 2.0 connectors
- Rear access IEEE1394 FireWire connectors
- High-Efficiency 80%+ 650W Silent Power Supply

WARRANTY

- One year off-site — extended warranties available
